# Water Metering Project

## George Town

Ben Lomond Water wishes to advise customers in George Town that water meters are being replaced as part of the Water Metering Project.

Work will commence in Brown, Tyson and Gee avenues from Monday 15 August.

Contractors acting on behalf of Ben Lomond Water will advise customers prior to the installation of the new meter and liaise with those affected regarding the brief interruption to their water supply.

Customers are advised they may experience air in their water pipes after supply is restored. If air is present please turn a tap on gently and run water for a minute.
